2. In response to an inquiry on 2 Feb from George Moore, House Civil Service Committee, regarding ☐ I informed him that the FBI file and Personal file indicate no record of any discharge from ☐ positions from 1943 to date, nor any evidence of prior interest in her case before association with CIG. Informed Mr. Moore that the file had been previously reviewed by the Director, Chief of Security, and other ranking officials here, and they were satisfied insofar as security was concerned. Mr. Moore has now informed me that information in the possession of the Committee indicates that ☐ has at some time since her employment with CIG been "closely associated with" the Information Bureau of the Soviet Embassy, and has furnished them with information concerning CIG. I informed Mr. Moore that the information would be transmitted to the Chief of Security for action.
